

March 17, 2020

Dear Friends,

During these uncertain times, we wanted to reach out and communicate what actions we are taking to minimize the community spread of COVID-19 according to CDC guidelines and advised protocols. Effective today, our Braintree Headquarters will be closed for the next two weeks: March 16 – 27, 2020. During this time, our staff will be working remotely and all business travel and in-person meetings will be suspended.

Because the situation and policies vary by location and day to day, we encourage everyone to stay informed and follow the recommendations of your local health authorities. Following the recommended guidelines may sound stressful and isolating but if we can continue to get outside and exercise, call our loved ones to check on them, and look forward to the future by making plans that make us happy it will help with the day to day of our new normal.

Thank you in advance for your understanding and patience as USWM mobilizes remotely to continue to provide our clients, family and friends with the best possible care.

Stay healthy and safe,

*John P. Napolitano, CFP®, CPA, PFS, MST*
